

## **What Maths looks like at Eden Primary**

### **The view from some of our Year 5 pupils...**

'I feel that Maths this year has been a good challenge.'

'We can choose our own work depending on how confident we are, because we get a good idea of our skills and what we need to work on by doing that.'

'My favourite activities are the NRich challenges.'

'We play a game called 'Dicey Operations' which all of Year 5 love. It involves place value, addition, subtraction, multiplication or division knowledge, and a bit of chance.'

'Reasoning is a real challenge because it involves having to explain how you found answers.'

'I love Maths! Every day there is a new challenge or thing to learn.'
