

## Academic Achievement at Eden Primary: July 2024

As always, please note that when looking at percentages, since we are a small school with one class per year group, one child represents approximately 3%.

### Year 6

#### Key Stage Two 'SATs'

% of children assessed at the **expected level or higher (EXS+)** and at **greater depth (GDS)**.

Combined score is 75% against a national average of 61% and Haringey and London averages of 66% and 67% respectively.

**Grey boxes indicate that the data is not yet available.**

We are extremely proud of our reading data and in particular of the fact that a number of children who were working below age related expectations at the start of the year went on to achieve EXS.
