

## **Eden Primary Medium Term Planning 2024-25 : Shtillim (Year 2) : Autumn 1**

### **Topic: My Local Area and Jewish Festivals of Tishrei**

#### **Overview and Rationale:**

Our Year begins looking closely at our topic of 'our Local area' and 'London'. We will be going on a trip to the Southbank to observe buildings closely and to make a clear representation of various features.

In September we study the meaning of the month of Elul and how it prepares us for the Tishrei festivals. We will learn about Rosh Hashanah (New Year), Yom Kippur (Day of Atonement), Sukkot (Tabernacles), Simchat Torah (finishing and beginning of the Torah). The theme of respect – for ourselves, one another, the Torah and our environment, strongly connects our Jewish Education, PSHE (Personal Social Health Education) and our RE and Diversity curriculum this half term.

In keeping with the Rosh Hashana/Yom Kippur theme of reflection and self examination, the children will write greeting cards to their family and reflecting on what they are thankful for. They will discuss "tashlich" where last years' sins are identified and thrown/washed away and design and make non leather shoes. To mark Simchat Torah, we'll examine the school sefer torah scroll, winding forward and back to mark the progression of the year. We will learn how to conduct ourselves in holy places, times and around holy objects, particularly in front of the sefer torah.

We will be looking at Gan Eden. We will find out why the school was named and study the story from Bereshit. We will consider the climate emergency and what we can do to help. We then move on to thinking about our school working environment, namely the attitudes, rules and values we need for a productive year.

Weekly PSHE will focus on mutual respect and class cohesion. We will identify differences across our immediate and wider community. We will discuss and rehearse how to negotiate conflict. RE and diversity will open children up to cultures living alongside our own by comparing Rosh Hashanah with Diwali. Both are family centred, feature traditional, sweet food etc.

Local places of worship will be identified, similarities and differences between them explored. Through Shemini Atzeret, when Jews pray for rain, the question will be put to the children "Why are we praying for rain when we have enough in this country?" so the children can see one of many ways communities can help other communities and understand where this prayer came from.

Children will complete a geographical and historical study of London. This will pair with Art and D&T (Design and Technology) where historic London landmarks will inspire our work. In Geography, we'll approach this in context, beginning to understand the size and shape and of the UK, its nations and capitals before looking more closely at London. We will find out where the name Muswell comes from and we will learn about the differences between human and natural features of the local area. History will begin at home in Muswell Hill, including local Jewish history. In turn, this will feed into our culminating writing project, where the well-liked children's book character "Claude" will be imagined on a new adventure in Muswell Hill. Pride in presentation will be emphasised.

#### **Culminating Project:**

Writing our own books, 'Claude in Muswell Hill', set in the local area and based on the book '*Claude in the City*'.
